Flying Eagle
Flying Eagle F7 Grey

5,900 Baht

Flying Eagle F7 Optimum skates combining two plastics of two different densities to allow for perfect support and fit.

A soft v-cut cuff section as well as a soft lace hole area, designed to keep the skate close to your feet and at the same time excellent for jumps and slides

This is also great for long-distance skating as it allows you to bend your knees forward more than usual. This skate is extremely durable and versatile, built to last, and to satisfy.

Technical specifications:

Shell: Premium ultra-resistant

Liners: Removable, Advanced non-stick comfortable, exchangeable and washable

Closures: top strap with metal buckle, middle micrometric strap, and laces

Frames: Ego Red 6000-AL CNC, rockerable frames with thread-in axles

Bearings: Flying Eagle Pro bearings

Wheels: 36-40EU – 76mm, 41-44EU – 80mm 85A SHR PU

Sizes: 36EU-44EU

Bont
Bont Z White (Boot
Only)

15,000 Baht

The Z is made with a 3k plain weave carbon fiber composite base.

The carbon is sourced exclusively from the world's #1 carbon manufacturer, Toray in Japan.

In the front, air vents pump air into the boot which are built into the TPU protective bumper. The Z skate starts out being built around a last that has been modified and improved for over 35 years by Mr. Inze Bont.

The epoxy resin is the most heat moldable in the industry.

Under the liner is a high quality memory foam that is 3mm thick and 50A in hardness so your energy doesn't get absorbed by the boot.

Features

- Carbon composite base 85% carbon, 15% fiberglass
- Epoxy resin
- TPU toe bumper
- Air vents including mesh
- Microfiber liner
- Microadjustable buckle
- Hand made monocoque construction
- EVA innersole
- Heat moldable tongue
- Waxed laces
- Lace cover

SKB

Luigino
Luigino Bolt Black
(Boot Only)

17,000 Baht

This model takes 2 weeks for shipment

Boot only

Bolt features Pro-E sole integrated technology which allows the foot to relax into the boot rather than sit 'on top' of the sole. Pro-E soles boosts performance through comfort and support, providing additional support through the bottom of the foot and not relying only on ankle support. Pro-E soles will reduce shin problems and foot cramping.

Boot Features:

- AquaTech Heatmolding System
- ProBack
- Pro-e Evolutionary Skate Sole
- BFT (Barefoot Technology)
- Microfiber lining
- Thermafiber
- Waxed laces
- Luigino Nano buckle
- High-density sole padding
- Carbon fiber
- Vertical mounting slots
- Poron ankle padding
- Sizes: 4us/36eu, 5us/37eu, 6us/38eu, 7us/39eu, 8us/40eu, 9us/41eu, 10us/42eu, 11us/43eu, 12us/44eu, 13us/45eu, 14us/46eu

Luigino
Luigino Challenge
(Boot Only)

12,000 Baht

Speed skate (boot only) Luigino Challenge from USA. A 100% Carbon fiber

Challenge is widely recognized as the best-fitting and performing boot in the world. First introduced in 2009 with our proprietary Barefoot Technology (BFT), the Challenge now features all of Luigino's latest technology, (excluding Pro-E). The industry leader has gotten even better!

Challenge is a low-profile shoe that allows ultimate performance for all types and styles of inline speed skating. Both the toe and ankle straps provide support and control. Our BFT Technology ensures a superior fit.

Features:

- AquaTech Heatmolding System
- BFT (Barefoot Technology)
- Microfiber lining
- Thermafiber
- Waxed laces
- Luigino Nano buckle
- High-density sole padding
- Vertical mounting slots
- Poron ankle padding

EZeefit
Ankle Booties Anti-
Friction 2mm

900 Baht

Great for any activity where footwear causes blisters:
skating, cycling, hiking, hunting, rock climbing, equestrian sports,
skiing and snowboarding, soccer and dance

Great, form fitting pull-on anti-blister Booties available in three
thicknesses so you can choose the one that enhances your
specific shoe/boot fit .

Ankle Booties allow your foot to grip your footwear better, yet
offer protection from rubbing and blistering. These have been
described to us a cross between sockless and wearing socks...
so the best of both worlds! Features flatlock stitching for
durability and stretch.

We recommend the Ultrathin for custom or tight fitting
boots. The 2mm gives light cushion and fills in small gaps. The
3mm fills in gaps in loose boots and reduces rubs and pressure
from recreational boots.

Powerslide
Kizer Element Jeph
Howard Green-Black

1,500 Baht

Kizer element frame with metal core and removable sidewalls,
reversible H block allow flat and anti-rockers setup.

Color: Black/Green

Art no: 800229/5

Size: S for boot size 38-42EU, L for boot size 43-47EU

Powerslide
Kizer Level III White

1,500 Baht

Kizer Level III frames, a freeskate/powerblading frames

Color: White

Art No: 800310

Mounting: UFS

Max wheel size: 72mm

Type: Flat frames

The Kizer Level 3 has breached the gap between big and small wheels. No more do you have to be limited by speed or ability to grind. The Kizer Level 2 showed that any trick is possible even with 76 mm wheels.

Now the same design team that brought you the Kizer level 2 presents the Kizer level 3. A 72 mm flat frame that has been designed with careful attention to logic and physics to allow you a frame that performs perfectly for aggressive skating, while giving you a much needed boost when it comes to speed.

Kizer continues it's legacy as the frame company that isn't afraid of pushing into new territories, and the level 3 frame is a the latest in a series of evolutions in frame technology.

Powerslide
Kizer Powerblade
Advance White-One
size

1,500 Baht

Kizer Powerblade Advance frames

Color: White

Frame Size: One size

Material: Fluid

Mounting: UFS, Screw in set (8mm steel)

Spacer: 8mm in set

Length: 243mm

Max wheel size: 80mm

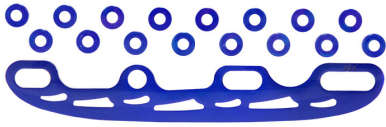

The Kizer Advance is the Powerblading Fluid. Simplicity and speed is the key to this frame. The worlds strongest Freeskate frame made from Kizer Fluid material it is designed to take aggressive skating into the future. Speed has always been limited on aggressive setups until now. Finally skaters can triple their speed and flow while still being able to grind.

Powerblading opens up new terrains and possibilities for the aggressive skater and the Advance frame is the bread and butter frame to this new advancement in aggressive skating. Shorter than current fitness and freeskate frames the Kizer Advance allows for incredible control and maneuverability.

Luigino
Pilot Fighter 7050

9,000 Baht

Our Fastest Frame Ever.

The Fighter Pilot is made of the same exotic alloys 7050-T7 used in demanding end-use applications such as aerospace parts, heavy equipment linkage, oil and gas equipment components.

7050 is the absolute best available alloy for strength vs weight ratios. 7050 provides superior energy return, the more you force into it the more you get back, similar to club head speed when impacting a golf ball.

Exotic Alloy 7050 vs 6000

Fracture Toughness: 31.9 ksi-in^{1/2} vs 26.4 ksi-in^{1/2}

Ultimate Tensile Strength: 76,000 psi vs 45,000 psi

Tensile Yield Strength: 68,000 psi vs 40,000 psi

Hardness, Brinell: 140 vs 95

Fighter 7050 Frame Sizes:

- 12.0 | 4x100 165/195 mount
- 12.9 | 3x110x100 195 mount
- * 13.2 | 4x110 195 mount

13.2 4x110 SPECS: deck height rear= 60mm / deck height front= 49mm

12.0 4x100 SPECS: deck height rear= 61mm / deck height front= 50mm
